Tyler Cox

Software Engineering Internship Candidate | AI Product Engineer | Full Stack Developer

Columbus, OH | Tyler.cox66@yahoo.com | linkedin.com/in/tyler-cox-53b886406 | github.com/TyCodes101 | tyler-portfolio-site.vercel.app

SUMMARY

Computer Science & Engineering student at The Ohio State University building deployed full-stack web products with conversational AI, responsive UI, and practical product thinking. Strong interest in software engineering internships where I can contribute to user-facing features, reliable systems, and thoughtful product execution.

EDUCATION

The Ohio State University — B.S. Computer Science & Engineering

Expected May 2027 | GPA: 3.1 | Columbus, OH

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, HTML, CSS

Frameworks & Tools: React, Next.js, Node.js, Tailwind CSS, Git, GitHub, Vercel

Data & Backend: PostgreSQL, Prisma, API integrations, full-stack application architecture

AI & Product: OpenAI APIs, conversational UX, structured AI outputs, intent handling, mobile-first design, testing workflows

PROJECTS

Calorie Compass — AI-Powered Calorie and Macro Tracking App

Next.js, TypeScript, PostgreSQL, Prisma, OpenAI APIs, Vercel | calorie-compass-chi.vercel.app | github.com/TyCodes101/calorie-compass

- Built and deployed a full-stack nutrition tracking app with conversational meal logging, macro tracking, and a mobile-first dashboard.
- Designed user flows for natural food entry, serving-size clarification, and correction handling to reduce friction during logging.
- Implemented trust-focused nutrition presentation that separates verified food data from estimated values for clearer user confidence.
- Organized the product around practical user needs: speed, clarity, responsive interaction, and understandable nutrition feedback.

Stride Fitness — Fitness / Productivity Web App

Responsive frontend, product UX | stride-step-tracker-tyler-cox-s-projects1.vercel.app

- Built a deployed fitness-focused web app centered on step tracking, progress visibility, and simple daily habit feedback.
- Improved the interface for responsive use across mobile and desktop screens with clear navigation and readable progress states.

EXPERIENCE

Resident Advisor — OSU Housing, The Ohio State University

- Support a residential community through clear communication, conflict response, student support, and consistent follow-through.
- Document incidents, escalations, and operational updates accurately while following housing procedures and privacy expectations.
- Coordinate community expectations, safety practices, and resident needs in a high-trust student leadership role.

Office Assistant — OSU Housing, The Ohio State University

- Support front-desk operations across student, family, and staff interactions with organized, service-oriented communication.
- Manage package, mail, scheduling, recordkeeping, and administrative workflows using Excel, Outlook, and Workday.
- Handle sensitive information professionally while keeping daily housing operations accurate, timely, and reliable.
