Tyler Cox

Columbus, OH | Tyler.cox66@yahoo.com | linkedin.com/in/tyler-cox-53b886406 | github.com/TyCodes101 | tyler-portfolio-site.vercel.app

Software Engineering Intern | AI Product Engineer | Full-Stack Developer

EDUCATION

The Ohio State University — B.S. Computer Science & Engineering **Expected May 2027**

Columbus, OH | GPA: 3.1

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL, HTML, CSS

Frontend: React, Next.js, Tailwind CSS, responsive design, mobile-first UI, accessibility basics, UI/UX systems

Backend & Data: Node.js, PostgreSQL, Prisma, REST APIs, full-stack architecture, data modeling

AI & Product Engineering: OpenAI APIs, LLM integration, prompt engineering, intent classification, conversational UX, structured outputs, AI-assisted workflows

Tools & Deployment: Git, GitHub, Vercel, CI/CD workflows, testing, debugging, Chrome DevTools, Excel, Outlook, Workday

PROJECTS

Calorie Compass — AI-Powered Calorie and Macro Tracking Platform **Production App**

Next.js, React, TypeScript, PostgreSQL, Prisma, OpenAI APIs, Vercel | calorie-compass-chi.vercel.app

- Built and deployed a full-stack nutrition tracking app with conversational meal logging, macro tracking, responsive dashboards, and a mobile-first product experience.
- Designed AI assistant behavior for natural food entry, intent classification, serving-size clarification, correction handling, and context-aware follow-up questions.
- Implemented a trust-focused nutrition pipeline that separates verified food data from estimated AI-assisted values to improve transparency and user confidence.
- Developed user-facing flows across frontend UI, backend data models, AI API integration, deployment configuration, and production iteration workflows.

Portfolio Website — Recruiter-Focused Developer Portfolio **Production Site**

Next.js, React, Tailwind CSS, Vercel, responsive frontend engineering | tyler-portfolio-site.vercel.app

- Designed and deployed a modern personal portfolio highlighting shipped products, software engineering skills, AI product work, and product ownership.
- Built responsive pages, project storytelling, resume access, typography hierarchy, and recruiter-friendly navigation for fast candidate evaluation.

Stride Fitness — Step Tracking Product **Deployed App**

Responsive web app, product-focused UX | stride-step-tracker-tyler-cox-s-projects1.vercel.app

- Shipped a step tracking experience focused on daily activity visibility, simple progress feedback, and lightweight user interaction.
- Prioritized mobile-friendly presentation, clear progress states, and low-friction routines for everyday user consistency.

EXPERIENCE

Resident Advisor — The Ohio State University Housing **Aug 2023 – Present**

- Support student residents through conflict resolution, crisis response, policy communication, documentation, and operational follow-through.
- Respond to on-call and urgent situations requiring triage, professionalism, judgment, escalation, and clear communication under pressure.
- Coordinate community operations, safety expectations, resident communication, events, and student support in a high-trust leadership role.

Office Assistant — OSU Housing **Sept 2022 – Present**

- Manage front-desk operations across student, family, and staff requests with organized customer support and service-oriented communication.
- Handle package, mail, scheduling, data entry, administrative documentation, and office workflows using Excel, Outlook, and Workday.
- Support housing logistics, issue routing, record accuracy, multitasking, and reliable daily operations in a fast-paced campus environment.

ADDITIONAL STRENGTHS

Product-minded builder with hands-on experience shipping deployed web applications, integrating AI APIs, designing user-facing workflows, debugging production behavior, improving UX clarity, and balancing technical execution with real user needs.
