Tyler Cox

Columbus, OH | Tyler.cox66@yahoo.com | linkedin.com/in/tyler-cox-53b886406 | github.com/TyCodes101 | tyler-portfolio-site.vercel.app

Software Engineering Intern | Full-Stack Developer | AI Product Engineer

SUMMARY

Computer Science student at Ohio State who builds and deploys real web products. Strongest in React/Next.js, full-stack JavaScript, conversational AI, and polished user-facing workflows.

EDUCATION

The Ohio State University — B.S. Computer Science & Engineering **Expected May 2027**

Columbus, OH | GPA: 3.1

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL, HTML/CSS

Frontend: React, Next.js, Tailwind CSS, responsive UI, mobile-first interfaces

Backend & Data: Node.js, PostgreSQL, Prisma, REST APIs, full-stack architecture

AI/Product: OpenAI APIs, LLM integration, intent classification, conversational UX, structured outputs

Tools: Git, GitHub, Vercel, CI/CD, testing, debugging, Chrome DevTools, Excel, Outlook, Workday

PROJECTS

Calorie Compass — AI Calorie & Macro Tracking Platform **Production App**

Next.js, React, TypeScript, PostgreSQL, Prisma, OpenAI APIs, Vercel | calorie-compass-chi.vercel.app

- Shipped a full-stack nutrition app with conversational meal logging, macro dashboards, and production deployment on Vercel.
- Built multi-step meal interactions for ambiguous food entries, serving-size clarification, corrections, and follow-up questions.
- Created a trust-focused nutrition system that separates verified food data from AI-estimated values so users can judge confidence quickly.
- Iterated on mobile-first logging flows, dashboard hierarchy, and feedback states to make food entry feel faster and less robotic.

Portfolio Website — Developer Portfolio & Resume Hub **Production Site**

Next.js, React, Tailwind CSS, Vercel | tyler-portfolio-site.vercel.app

- Built a responsive portfolio that gives recruiters quick access to shipped products, live links, GitHub, LinkedIn, and resume materials.
- Structured project pages around product context, engineering decisions, and clean frontend presentation rather than class-project summaries.

Stride Fitness — Step Tracking Product **Deployed App**

Responsive web app, product-focused UX | stride-step-tracker-tyler-cox-s-projects1.vercel.app

- Delivered a lightweight step tracker with simple progress feedback, daily visibility, and mobile-friendly presentation.
- Kept the interface intentionally low-friction so users can check progress without digging through extra screens.

EXPERIENCE

Resident Advisor — The Ohio State University Housing **Aug 2023 – Present**

- Lead and support residents through conflict resolution, policy questions, community issues, and crisis response.
- Handle on-call situations with calm judgment, clear escalation, accurate documentation, and privacy-conscious communication.
- Coordinate events, safety expectations, and day-to-day resident support in a high-trust campus leadership role.

Office Assistant — OSU Housing **Sept 2022 – Present**

- Run front-desk support for students, families, and staff while balancing walk-ins, calls, packages, and administrative requests.
- Maintain accurate records and housing workflows across Excel, Outlook, Workday, scheduling, mail, and package operations.
- Route issues quickly, communicate clearly, and keep daily office operations moving in a high-volume campus environment.
