Tyler Cox

AI Product Engineer | Software Engineering Intern | Full-Stack Product Builder

Columbus, OH
Tyler.cox66@yahoo.com
linkedin.com/in/tyler-cox-53b886406
github.com/TyCodes101 | tyler-portfolio-site.vercel.app

Ohio State Computer Science & Engineering student building deployed full-stack products with conversational AI, polished frontend systems, and practical product judgment. Strong fit for software engineering, AI product engineering, and startup-style roles requiring ownership, speed, and user-facing execution.

FEATURED PROJECTS

Calorie Compass — AI-Powered Calorie and Macro Tracking Platform

Next.js, React, TypeScript, PostgreSQL, Prisma, OpenAI APIs, Vercel | calorie-compass-chi.vercel.app

- Built and deployed a full-stack nutrition app with conversational meal logging, macro tracking, and a dashboard-first mobile experience.
- Designed an AI assistant flow for natural food entry, serving-size clarification, correction handling, and context-aware follow-up questions.
- Implemented a trust-focused nutrition pipeline that separates verified food data from estimated values so users understand confidence and source quality.
- Improved the product experience through responsive dashboards, polished logging flows, and UX decisions focused on speed, clarity, and user confidence.

Portfolio Website — Recruiter-Focused Personal Product Portfolio

Next.js, React, Tailwind CSS, Vercel, responsive UI | tyler-portfolio-site.vercel.app

- Designed and deployed a modern portfolio that presents shipped products, technical ownership, and product-engineering strengths for internship recruiting.
- Built a responsive frontend with polished typography, project storytelling, resume access, and recruiter-friendly navigation.

Stride Fitness — Deployed Step Tracking Product

Responsive web app, product-focused UX | stride-step-tracker-tyler-cox-s-projects1.vercel.app

- Shipped a fitness tracking experience focused on daily step visibility, progress feedback, and lightweight user interaction.
- Prioritized simple flows, mobile-friendly presentation, and clear progress states for everyday consistency.

EXPERIENCE

Resident Advisor — The Ohio State University Housing **Aug 2023 – Present**

- Support a residential community through conflict response, student support, policy communication, and operational follow-through.
- Respond to on-call and urgent situations with calm triage, accurate documentation, and clear escalation when needed.
- Communicate expectations, resolve resident concerns, and translate university procedures into practical day-to-day support.
- Coordinate community operations, events, and safety practices while balancing confidentiality, empathy, and accountability.

Office Assistant — OSU Housing **Sept 2022 – Present**

- Manage front-desk operations across student, family, and staff interactions with organized, service-oriented communication.
- Handle package, mail, scheduling, documentation, and administrative workflows using Excel, Outlook, and Workday.
- Maintain accurate records and sensitive information in a fast-paced housing environment with high daily request volume.
- Support operational logistics, issue routing, and office coordination to keep housing services reliable and responsive.

EDUCATION

The Ohio State University

B.S. Computer Science & Engineering
Expected May 2027 | GPA: 3.1 | Columbus, OH

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL, HTML, CSS

Frameworks: React, Next.js, Node.js, Tailwind CSS, Prisma

AI/Product: OpenAI APIs, intent classification, conversational UX, prompt engineering, structured outputs

Backend/Data: PostgreSQL, REST APIs, full-stack systems, data modeling

Deployment/Tools: Vercel, Git, GitHub, responsive design, testing workflows, Chrome DevTools

Operations Tools: Excel, Outlook, Workday

RECRUITER SNAPSHOT

- **Builds real products:** multiple deployed apps with live URLs and product-oriented UX.
- **AI/product edge:** hands-on conversational AI, intent classification, and user trust systems.
- **Frontend strength:** responsive interfaces, mobile-first layouts, and polished visual hierarchy.
- **Operational maturity:** RA/OA roles show communication, triage, documentation, and reliability.
